	IRS Annuity Aggregation Rules
	Under IRS regulations, all deferred annuity contracts issued by the same insurance company to the same policyholder
	during a calendar year are treated as one annuity contract. Under the IRS aggregation rules, all amounts received from such annuities are aggregated for tax calculation and tax reporting purposes.
	Revenue Procedure 2011-38
	The IRS states that a partial 1035 exchange will be treated as tax-free unless deferred annuity withdrawals are taken within
	180 days of the transfer or a SPIA payment option other than a life or certain option with a minimum of 10 years is selected.
	Notice for Annuity Purchase in Qualified Plans
	The reasons for the purchase of a variable annuity should not include tax deferral when the annuity is intended for use in a tax-qualified retirement plan such as a 401(k), 401(a), IRA, or SEP. The tax deferral is already provided by the
	tax-qualified retirement plan. In these situations, the reasons for the purchase of a variable annuity should focus on
	other benefits, such as lifetime income payments, family protection through an enhanced death benefit, multiple fund
	managers and guaranteed fees.
	Qualified Plan/Charitable Remainder Trust (CRT) Tax Reporting  The Penn Mutual Life Insurance Company will not be responsible for any administration or tax reporting for any of the
	contracts that it issues for the Trust. The Plan Trustee will be responsible for all administration, including tax reporting,
	trust accounting calculation of trust distribution requirements, annual trust return filings, etc. The Trustee may, at their discretion, retain a qualified Third-Party Administrator (TPA) to perform administration and tax reporting.

	<b>Deferred Annuity Contracts Owned by Non-Natural Entities</b> Deferred annuity contracts owned by non-natural entities do not qualify for tax-deferred treatment of gains in the
	contract.
13.	Replacement
	Does the Owner or Annuitant have existing annuity or life insurance contracts? ☐ Yes ☐ No
	Will this contract replace (in whole or in part) any existing annuity or life insurance contracts?
	If yes, you must include the State Replacement Form (PM0479) or the applicable state specific form(s) included in the application package.

## **Single Premium Immediate Annuity Disclosure**

The Penn Mutual Life Insurance Company ("The Company") is a Pennsylvania mutual life insurance company chartered in 1847. We are licensed to sell insurance in all 50 states and the District of Columbia. We are located at 600 Dresher Road, Horsham, PA 19044. Our mailing address is The Penn Mutual Life Insurance Company Attn: Customer Service Group, Philadelphia, PA 19172.

This disclosure document describes an Individual Fixed Immediate Annuity Contract with a Single Purchase Payment, Form numbers A-80, A-81, A-82, A-83, A-84, AC-80. This annuity is fixed, which means it earns a guaranteed interest rate during the life of the contract. This is an immediate annuity which means payouts must begin within 12 months of the issue date. The annuity allows for a single premium, which must be paid in full prior to the delivery of the policy. A Single Premium Immediate Annuity is an ideal solution for clients at or near retirement who are looking to cover fixed expenses or want steady, secure income in their retirement plan. The annuity is non-refundable and has no surrender value or death benefit after any guaranteed payment period, if applicable to the SPIA option selected. Guaranteed payment period payments cannot be commuted.

The single premium is used to determine the annuity payments paid out to you immediately. There are minimum and maximum limits to the premium that is made to the annuity contract.

This is a summary document and not part of your contract with the insurer. This annuity is subject to regulatory oversight by your state department of insurance. Consumers in New Jersey may contact the Department of Banking and Insurance at 609-272-7272 or 1-800-446-7467 or at the website www.njdobi.org for assistance.

There is no way to surrender/cancel the annuity once the Right to Review period ends.

#### **Annuity Options**

You must choose, at issue date, one of the following Fixed Annuity Options:

If the Contingent Annuitant dies before the Primary Annuitant, then payments will be made for the life of the Primary Annuitant.
- Joint and Contingent Life Annuitant with Period Certain. Payments will be made during the joint lives of the Annuitants, with one Annuitant being deemed Primary and the other Annuitant deemed Contingent Annuitant. Payments are guaranteed for a period of time ranging from 5 to 30 years.

## What Happens Upon Death?

Depending on the annuity payout option chosen, and the time into the payout period the Annuitant dies, the Beneficiary may receive payments after the Annuitant's death.

Life Only

For life-contingent only annuity options, upon death of the Annuitant, or last surviving Annuitant for a joint option, payments will cease and there are no payments made to the Beneficiary.

Period Certain & Installment Refund: Single For Single Period Certain and Installment Refund annuity payout options, if the Annuitant dies prior to the end of the guaranteed payment period, guaranteed payments will continue to be paid to the Beneficiary until the end of the guaranteed period.

Period Certain: Joint For Joint & Survivor Period Certain annuity payout options, upon first death of either Annuitant, guaranteed payments will continue to be paid to the surviving Annuitant until the end of the guaranteed period, upon which lifetime payments will be made. If both Annuitants die prior to the end of the guaranteed period, the payments will continue to be paid to the Beneficiary until the end of the guaranteed period.

For Joint & Contingent Period Certain annuity payout options, upon death of the Primary Annuitant, guaranteed payments will continue to be paid to the Contingent Annuitant until the end of the guaranteed period, upon which lifetime payments will be made. If the Contingent Annuitant dies before the Primary Annuitant, the Primary Annuitant will receive lifetime payments. If both Annuitants die prior to the end of the guaranteed period, the payments will continue to be paid to the Beneficiary until the end of the guaranteed period.

The Beneficiary, if guaranteed payments made to the Beneficiary are applicable, may choose to continue the periodic guaranteed payments until the guaranteed period ends. The Beneficiary may also elect to receive a Commuted Value lump-sum payment instead of receiving periodic payments. A Commuted Value is the present value of any scheduled guaranteed payments, discounted at the current Commuted Value Rate. Note that the Commuted Value will be less than the sum of the periodic guaranteed payments due to discounting to present day.

Currently, the Commuted Value Rate is:

#### **Optional Riders**

There are no optional riders available with this annuity.

#### Taxes

You pay no federal income taxes on your premium until money is distributed to you as an annuity payment, or to your Beneficiary as a guaranteed payment or Commuted Value upon death.

The state of New Jersey does not currently impose a premium tax on annuities.

If the Annuity Option purchased is not life contingent, an additional federal income tax of 10% may be charged on distributions prior to age 59-1/2. There may be exceptions to this penalty; for further information, you should consult a qualified tax professional.

#### **Qualified and Non-Qualified Contracts**

For non-qualified annuities, your taxable income will generally be the amount that your annuity payments exceed your premium, or investment in your contract. Distributions are taxed at ordinary income tax rates.

To determine what portion of the annuity payment is taxed and what portion is not, an exclusion ratio is determined for the contract. The exclusion ratio is expressed as a fraction or as a percentage and is arrived at by dividing the investment in the contract by the expected return. This exclusion ratio is applied to each annuity payment to find the portion of the payment that is excludable from gross income; the balance of the guaranteed annuity payment is includable in gross income for the year received. The exclusion ratio applies to payments received until the investment in the contract is fully recovered. Payments received after that point are fully includable in income.

For qualified and Traditional IRA annuities, annuity payments are subject to federal income taxation. There is no additional tax advantage to purchasing an annuity as part of a qualified plan, other than the tax advantage provided by the qualified plan itself.

## 1035 Exchange Disclosure Statement

Generally, the surrender of an existing insurance or annuity contract is a taxable event; the contract owner must recognize any gain on the original, surrendered contract as current income. IRS section 1035 provides a tax-free method of exchanging an existing life, endowment or annuity contract for a new contract. If the exchange meets the conditions of Section 1035 of the Internal Revenue Code, the transfer will be a non-taxable event.

No limit is imposed on the number of contracts that can be exchanged for the one contract. However, all contracts must be on the same insured and have the same owner. Changes in ownership may occur after the exchange is completed. The contracts must be life insurance, endowment or annuity contracts issued by a life insurance company. Exchanges must be: from a life insurance contract to a life insurance contract; from an endowment contract to an annuity contract or from an annuity contract to an annuity contract.

For a transaction to qualify as a 1035 Exchange, the original contract must actually be exchanged for a new contract. It is not sufficient for the policy owner to receive a check and apply the proceeds to the purchase of a new contract. The exchange must take place between the two insurance companies. Receipt by the policy owner of any portion of the surrender proceeds from contracts being exchanged may be treated as a taxable event. This includes outstanding policy loans extinguished during the exchange process.

The policyowner has several ways to deal with an outstanding loan on the original life policy. The loan can be extinguished or canceled at the time of the exchange. If there is a gain in the contract, cancellation of the loan on the original policy is considered a distribution and may be a taxable event. To avoid this result, the policyowner can pay off the existing loan prior to the exchange. A second way of avoiding a taxable event due to the loan would be for the old loan to be carried over onto the new contract.

Life insurance contracts issued before June 21, 1988 may lose preferential tax treatment afforded them under Internal Revenue Code Section 7702 and 7702A under certain circumstances in a 1035 Exchange. The new policy may be classified as a modified endowment contract ("MEC") and taxed accordingly. Most single premium life insurance policies issued after June 21, 1988 are characterized as MECs. If two or more policies are exchanged for a single contract and at least one of the existing contracts is a MEC, the new policy will also be a MEC.

The contract owner must indicate that a Section 1035 Exchange is being initiated at the time the new application is completed. The policy owner and the Internal Revenue Service will receive an Internal Revenue Form 1099R from the original company indicating that an exchange has been made.

For Annuity Contracts only, you should be aware that some insurance companies do not recognize partial 1035 exchanges. If you are partially exchanging into Penn Mutual/PIA, your existing annuity issuer (the tax reporting agent for the transaction) may report your partial exchange as a taxable event to the extent of any gain distributed; they may also report that the taxable portion of the distribution is subject to a 10% early withdrawal penalty. If this occurs, it will be your responsibility to claim this transaction as a tax-free 1035 exchange on your income tax return.

The foregoing discussion is general and is not intended as tax advice. Your independent tax advisor should be consulted for more complete information. This discussion is based on the Company's understanding of federal income tax laws as they are currently interpreted by the Internal Revenue Service. Penn Mutual makes no representations or guarantees and assumes no liability with regard to the tax consequences of this exchange.

I hereby acknowledge that I have received, read and signed a copy of the above "Section1035 Disclosure Statement" and fully understand the importance of correctly determining the tax status of all policies to be exchanged as well as the possible tax consequences which can result under the situations described above.
