This is a summary document and not a part of your contract with the insurer. Your annuity contract contains complete details.

General Description: The AG Global 8 Index Annuity is a flexible premium deferred annuity issued by American General Life Insurance Company (the Company). This annuity is flexible-premium which means you can buy the annuity with more than one premium (payment). It is a fixed annuity which means it earns a specified interest rate during the guaranteed period. This annuity is deferred, which means payouts begin at a future date. You don't pay taxes on the interest it earns until the money is paid to you.

You can use an annuity to save money for retirement and to receive retirement income for life. It is not meant to be used to meet short-term financial goals.

If you have questions about this annuity, please ask your agent, broker or advisor, or contact a company representative at 888-438-6933.

Premium: Minimum initial purchase premium is \$5,000. After the initial premium you may make additional premiums of at least \$2,000 at any time while you are age 80 or younger. Total premiums paid may not exceed \$1,000,000 or \$500,000 if age 75 or older.

Right to Examine Contract: If after reading the contract you are not satisfied for any reason, you may return the contract to us within twenty (20) days after receiving it and receive a prompt refund of the premium paid, including any early withdrawal charges (there are no other fees or charges under the contract). Mail or surrender the contract, along with a written request for cancellation, to the address at the top of this page.

THE ANNUITY CONTRACT:

Owner – The person or persons entitled to the ownership rights as specified in the "Owner" provisions of the annuity.

Annuitant – The "measuring life" on the annuity designated by the owner in the application.

Beneficiary – The person or persons who will receive payment of the death benefit as designated by the owner.

How will the value of my annuity grow?

The AG Global 8 Index® Annuity earns interest using two (2) interest crediting methods – Index interest and fixed interest. There are three (3) index interest accounts and a fixed interest account which are described below. Each of these four (4) accounts is an interest crediting account with its own separate account value ("Account Value"). The factors used in calculating index interest and the declared interest rate on the fixed interest account are subject to change at any time up until the Date of Issue. The initial interest rate, Participation Rate, Index Cap and Index Spread (if applicable) can be found on page 3, the Schedule page, of the contract.

The Index Accounts: The index interest accounts allow the value of the annuity to grow through returns based in part on the performance of an index or multiple indices (see account descriptions for details). The amount of index interest depends in part on how the index (or indices) perform. Index-linked interest is credited to your annuity account at the end of each contract year ("Contract Anniversary"). The values of the stock market indices change daily. Index interest credited to the index interest accounts is calculated using the value of the index (or indices) on the first and last days of each contract year. Therefore the contract issue date (which in turn determines each subsequent contract anniversary) impacts interest credited. Index interest will be credited as follows:

• **Global Multiple Index Account with Cap:** This account's credited interest rate is based on an annual point-to point methodology using changes in three global indices (S&P 500®, the Dow Jones EURO STOXX 50® Index and the Nikkei 225SM index) over a contract year with gains subject to a weighting formula that may overweight performance in one or more indices and then to an Index Cap. After determining the gains or losses in each of the indices over the contract year, a percentage of each index will be derived based on a predetermined weighting with the highest performing index given the most weight. These three weighted results will be added together and compared to the Index Cap, if applicable, to obtain an interest rate. The resulting interest rate will never be less than zero. The Index Cap will be declared annually and will be in effect for one contract year.

• **Annual Point-to-Point Account with Participation Rate:** This account's credited interest rate is based on the percentage change in the S&P 500® over a contract year subject to a Participation Rate. The interest rate derived from this formula will never be less than zero. The Participation Rate will be declared annually and will be in effect for one contract year.

• **Monthly Additive Account with Cap:** This account's credited interest rate is based in part on the performance of the S&P 500®. The rate equals the sum of each monthly point-to-point percentage change in the S&P 500® (positive and negative), with the monthly change subject to an Index Cap. The resulting interest rate derived from the sum of the monthly changes will never be less than zero. The Index Cap will be declared annually and will be in effect for one contract year.

Fixed Interest Account: The fixed interest account initial interest rate is guaranteed to be in effect for the first contract year. A new interest rate will be declared annually in advance of each contract anniversary and will be guaranteed for the following contract year.

Interest is credited daily and compounded daily to achieve the annual declared rate. The minimum guaranteed credited interest rate for the Fixed Interest Account is guaranteed always to be at least 1% and will be listed in your contract.

Interim Account: All premiums received after the contract has been issued will be allocated to the Interim Account. On each contract anniversary, the balance in the Interim Account will be automatically allocated to each of the available interest crediting accounts based on the premium allocation selection made at the time the contract was issued. If, however, an Account Value reallocation occurred, then the most recent previous Account Value reallocation percentage(s) will be used.

The Company will declare an initial credited interest rate for the Interim Account, which will be guaranteed for the first contract year. The minimum guaranteed credited interest rate for the Interim Account is guaranteed always to be at least 1% and will be listed in your contract.

Can I take funds out of my annuity contract?

Each contract year, you are allowed to withdraw up to 10% of the Annuity Value (the single-premium contribution, plus interest, minus any withdrawals) as of the previous contract anniversary (or 10% of the single premium if the withdrawal is in the first contract year) without a Withdrawal Charge.

Required Minimum Distribution: The Internal Revenue Code ("IRC") directs that a minimum amount of retirement benefits must be paid from tax-qualified or IRA contracts each year beginning the year in which the contract owner attains age 70 1/2. A distribution equal to the required minimum distribution as determined under IRC §401(a)(9) and its accompanying U.S. Treasury regulations will be:

- without withdrawal charge at any time after the date of issue and before the annuity date;
- will count against the 10% free withdrawal amount, thereby reducing or possibly eliminating the ability to take other free withdrawals within a contract year.

BENEFITS:

How do I get income (payouts) from my annuity?

You may use this contract to create a fixed income for life or for a specified period of time. This is called "annuitizing or annuitization" of your contract. The Annuity Value will be applied to compute the income payments if annuitization occurs after the fifth (5th) contract year and the income plan selected is either life contingent or for a certain period equal to 5 years or more. Otherwise, withdrawal charges may apply. Your annuity contract describes your income plan options in detail.

The amount of income paid under an income plan will depend on the amount applied to purchase the income plan, less premium tax, if any. If any Life Income plan is selected, the annuitant's age and gender are also used to determine the income payment amount.

Income Plan options are described below and may be available on a single life or joint life basis. Payments may be set up under one of these Income Plans or under another agreeable plan.

- **Life Income:** Pays income for as long as you live.

- **Life Income with Period Certain:** Pays income for as long as you live. If you die within the "period certain," the income payments will be continued to your beneficiary for the rest of the period.

- **Period Certain:** Pays income for a specified period of years.

- **Life Income with Installment Refund:** Pays income for as long as you live. If you die prior to receiving income payments totaling (or exceeding) the value used to purchase the payout, payments will be continued to your beneficiary until such value is recovered.

You may change both the start date and the payout option up until payouts begin.

Once payments begin, you can't surrender (cancel) your annuity.

What happens after I die?

If you die before you begin receiving income payments from your annuity, your beneficiary may choose to receive the Annuity Value without withdrawal charges as of the date of death in a lump sum or as permitted by IRS guidelines. If there are Joint Owners, the death benefit will be payable upon the death of the first owner to die (some exceptions apply). If you die after income payments begin, payments will end unless the income plan chosen calls for payments to continue after your death. Special exceptions apply if the sole beneficiary is the spouse of the owner. Civil Union partners have all of the same benefits, protections and responsibilities as opposite-gender married couples, but this does not alter federal law, which only confers marriage rights and privileges to opposite-gender married couples for this special exception. Please refer to the annuity contract for full details regarding death benefits. You also may wish to consult a tax advisor for further guidance.

OPTIONAL RIDERS AND THEIR FEES:

Guaranteed Minimum Withdrawal Benefit (GMWB):

The rider guarantees the owner the right to receive payments each contract year up to an amount equal to the Rider Benefit Amount. As long as no Excess Withdrawals are taken, this rider guarantees that the Rider Benefit Amount withdrawals will be available for life and will never decrease, without the need to annuitize the contract, even if the annuity value declines to zero.

Please see the Guaranteed Minimum Withdrawal Benefit (GMWB) Rider for full a description of the benefits and restrictions associated with this rider.

Extended Care Rider: Withdrawal charges may be waived in the event an owner receives qualifying extended care. The Rider provides:

- Extended care must begin at least one year after the Date of Issue of the contract;
- Extended care must be provided in a Qualified Institution (as defined in the Rider) for at least 90 consecutive days; and
- Coverage terminates on the earliest of the date on which any Owner becomes age 86, or the date on which the annuity contract is terminated or surrendered.

There are no additional fees associated with these riders.

FEES, EXPENSES AND OTHER CHARGES:

What happens if I take out some or all of the money from my annuity?

Withdrawal Charges:

Also known as surrender charges; when you take money from your annuity, a charge might be assessed during the first eight contract years. If you take out all (a full surrender) or part (a partial withdrawal) of the money during the first eight contract years, you also may have to pay a withdrawal charge if the amount withdrawn exceeds the 10% allowed. The amount of the charge depends on how long you've had the annuity and how much you withdraw. There is no withdrawal charge beginning in the seventh contract year.

Here's how the withdrawals charges are calculated:

Contract Year	1	2	3	4	5	6	7	8	9+
Withdrawal Charge	8%	7	6	5	4	3	2	1	0

Example: On your third contract anniversary, your Annuity Value is \$10,000, and a month later you want to withdraw \$1,200. Since \$1,200 is more than the 10% allowed out of the Annuity Value ($\$10,000 \times 10\% = \$1,000$), your withdrawal charge is $\$200 \times 5\% = \10 .

Exceptions: In some cases, we may waive the surrender charge. For example, there's no surrender charge if we pay the remaining value of your annuity to a beneficiary after your death.

Guaranteed Minimum Withdrawal Value:

Your contract provides a guaranteed withdrawal value equal to 87.5% of the premium, less prior withdrawals, accumulated at the Interest Rate for Minimum Withdrawal Values. The Interest Rate for Minimum Withdrawal Values can vary by calendar quarter, but will not change for your contract once it is issued. The Company has chosen not to set the Interest Rate for Minimum Withdrawal Values below 1.0% even if allowed by state regulations. If you make a withdrawal during your withdrawal charge period, you could lose money.

Do I pay any other fees or charges?

No. There are no fees or charges on this annuity other than the withdrawal charge above.

TAXES:

If the premiums made to your annuity consist of pre-tax dollars, then your annuity is considered to be qualified. However, if the premiums made consist of after-tax dollars, then your annuity is considered to be non-qualified. The tax status of your annuity is shown on your application. If your application reflects you are purchasing this contract as an Individual Retirement Annuity (IRA), an IRA endorsement will be enclosed in your policy packet.

How will payouts and withdrawals from my annuity be taxed?

This annuity is **tax-deferred**, which means you do not pay income taxes on the interest it earns until the money is withdrawn. For contracts purchased with qualified funds, payouts and withdrawals are fully-taxable. There may be some exceptions to this tax penalty; therefore, you may wish to consult a tax advisor for further guidance.

When you take payouts or make a withdrawal, you pay ordinary income taxes on the earned interest and any payments not previously taxed. Withdrawals from your annuity prior to age 59 1/2 might be subject to a federal income tax penalty, currently ten percent (10%) of the taxable portion of the amount withdrawn. If your state imposes a premium tax, it will be deducted from the amount you receive when you annuitize your contract. New Jersey currently does not impose a premium tax on annuities.

You can exchange one tax-deferred annuity for another without paying taxes on the earnings when you make the exchange. Before you do, compare the benefits, features and costs of the two annuities. You may pay a surrender charge if you make the exchange during the first ten years you own the annuity.

Does buying an annuity in a retirement plan provide extra tax benefits?

Buying an annuity within an IRA, 401(k) or other tax-deferred retirement plan does not give you any extra tax benefits. Choose your annuity based on its other features and benefits as well as its risks and costs, not its tax benefits.

OTHER IMPORTANT INFORMATION:

What else do I need to know?

- **The Owner is allowed to transfer account values between the interest crediting accounts on each contract anniversary without a withdrawal charge. There are no restrictions as to the minimum amount of funds in any one account.**
- **This annuity is designed for people to meet their long-term financial goals.**
- **This annuity does not participate in any stock or equity investments. You are not purchasing shares of stock or an index. Dividends paid on the stocks on which the indexes are based do not increase your annuity earnings.**
- **A statement of your account, along with a reallocation notice, and GMWB information will be provided once each contract year.**
- **The Company may change your annuity contract from time to time to follow federal or state laws and regulations. If changes are required, you will be notified about the changes in writing.**
- **The Company pays the agent, broker or firm for selling the annuity to you. They may receive more compensation for selling this annuity contract than for selling other annuity contracts.**
- **The contract matures on the Annuity Date shown on the Contract's schedule page, page 3. The maturity age will be Annuitant age 100 (state variations may apply).**
- **This annuity is subject to regulatory oversight by the New Jersey Department of Banking and Insurance. Consumers may contact the Department at 609-272-7272 or 1-800-446-7467, or at the website www.njdobi.org for assistance.**

IMPORTANT NOTICE: REPLACEMENT OF LIFE INSURANCE OR ANNUITIES

This document must be signed by the applicant and the producer, if there is one, and a copy left with the applicant.

I do not want this notice read aloud to me. _____ (Applicants must initial only if they do not want the notice read aloud.)

You are contemplating the purchase of a life insurance policy or annuity contract. In some cases this purchase may involve discontinuing or changing an existing policy or contract. If so, a replacement is occurring. Financed purchases are also considered replacements.

A *replacement* occurs when a new policy or contract is purchased and, in connection with the sale, you discontinue making premium payments on the existing policy or contract, or an existing policy or contract is surrendered, forfeited, assigned to the replacing insurer, or otherwise terminated or used in a financed purchase.

A *financed purchase* occurs when the purchase of a new life insurance policy involves the use of funds obtained by the withdrawal or surrender of or by borrowing some or all of the policy values, including accumulated dividends, of an existing policy to pay all or part of any premium or payment due on the new policy. A financed purchase is a replacement.

You should carefully consider whether a replacement is in your best interest. You will pay acquisition costs and there may be surrender costs deducted from your policy or contract. You may be able to make changes to your existing policy or contract to meet your insurance needs at less cost. A financed purchase will reduce the value of your existing policy and may reduce the amount paid upon the death of the insured.

Are You Replacing Coverage? We want you to understand the effects of replacements before you make your purchase decision and ask that you answer the following questions and consider the questions on the back of this form.

1. Are you considering discontinuing making premium payments, surrendering, forfeiting, assigning to the insurer, or otherwise terminating your existing policy or contract? ___ YES ___ NO
2. Are you considering using funds from your existing policies or contracts to pay premiums due on the new policy or contract? ___ YES ___ NO

Applicant's and Producer's Non-Replacement Certification. Having answered "no" to questions 1 and 2, no replacement of coverage is occurring. We certify that the above two responses are, to the best of our knowledge, accurate.

X _____
Applicant's Signature and Printed Name **Date**

X _____
Producer's Signature and Printed Name **Date**

If signed above, do not complete the remainder of the form.

If you answered "yes" to either question 1 or 2, complete the remainder of this form, as directed.

List each existing policy or contract you are contemplating replacing (include the name of the insurer, the insured or annuitant, and the policy or contract number if available) and whether each policy or contract will be replaced or used as a source of financing:

INSURER NAME	CONTRACT OR POLICY #	INSURED OR ANNUITANT	REPLACED (R) OR FINANCING (F)
1.			
2.			
3.			

Make sure you know the facts. Contact your existing company or its producer for information about the old policy or contract. If you request one, an in force illustration, policy summary or available disclosure documents must be sent to you by the existing insurer. Ask for and retain all sales material used by the producer in the sales presentation. Be sure that you are making an informed decision.

Reason for Replacement: The existing policy or contract is being replaced because _____

Sales Materials. A copy of all printed sales materials used in connection with this transaction must be provided to the applicant. In addition, the producer should attach to the application all individualized sales materials used and list below all other sales materials used. *(List form number and brief description or name of sales materials used. If no sales materials were used, indicate "None".)*

Replacement Factors. A replacement may not be in your best interest, or your decision could be a good one. You should make a careful comparison of the costs and benefits of your existing policy or contract and the proposed policy or contract. One way to do this is to ask the company or producer that sold you your existing policy or contract to provide you with information concerning your existing policy or contract. This may include an illustration of how your existing policy or contract is working now and how it would perform in the future based on certain assumptions. Illustrations should not, however, be used as the sole basis to compare policies or contracts. You should discuss the following with your producer to determine whether replacement or financing your purchase makes sense:

PREMIUMS:

- Are they affordable?
- Could they change?
- You're older—are premiums higher for the proposed new policy?
- How long will you have to pay premiums on the new policy? On the old policy?

IF YOU ARE KEEPING THE OLD POLICY AS WELL AS THE NEW POLICY:

- How are premiums for both policies being paid?
- How will the premiums on your existing policy be affected?
- Will a loan be deducted from death benefits?
- What values from the old policy are being used to pay premiums?

POLICY VALUES:

- New policies usually take longer to build cash values and to pay dividends.
- Acquisition costs for the old policy may have been paid; you will incur costs for the new one.
- What surrender charges do the policies have?
- What expense and sales charges will you pay on the new policy?
- Does the new policy provide more insurance coverage?

IF YOU ARE SURRENDERING AN ANNUITY OR INTEREST SENSITIVE LIFE PRODUCT:

- Will you pay surrender charges on your old contract?
- What are the interest rate guarantees for the new contract?
- Have you compared the contract charges or other policy expenses?

INSURABILITY:

- If your health has changed since you bought your old policy, the new one could cost you more, or you could be turned down.
- You may need a medical exam for a new policy.
- Claims on most new policies for up to the first two years can be denied based on inaccurate statements.
- Suicide limitations may begin anew on the new coverage.

OTHER ISSUES TO CONSIDER FOR ALL TRANSACTIONS:

- What are the tax consequences of buying the new policy?
- Is this a tax free exchange? (See your tax advisor.)
- Is there a benefit from favorable "grandfathered" treatment of the old policy under the federal tax code?
- Will the existing insurer be willing to modify the old policy?
- How does the quality and financial stability of the new company compare with your existing company?

Applicant's Certification. I certify that the responses in this document are, to the best of my knowledge, accurate. I recognize that, for a period of 30 days from the date I receive my new policy or contract, I have the right to return it for an unconditional full refund of all premiums or considerations paid on it, including any policy fees or charges or, in the case of a variable or market value adjustment policy or contract, a payment of the cash surrender value provided under the policy or contract plus the fees and other charges deducted from the gross premiums or considerations or imposed under such policy or contract.
